

Stud fees:

There will be no travelling with our stallions. We work together with De Twinkeling at Kasterlee. www.twinkeling.be Mares (possibly with foal) can stay here.

The mares should be healthy, vaccination and deworming should be given in due time and proof must be submitted.

We will accommodate your mare with the outmost care, however, we accept no liability whatsoever during the stay of the Mare and its foal. In case of accident or illness of your mare during her stay, we reserve the right to turn to the vet (costs for the owner of the Mare).

If the mare is not pregnant or her embryo is lost there is no Stud fee refunded by us but should they come back for a new cover. Only stable money must be paid by the Mare holder but no Stud fee.

We give live foal guarantee. This means that if you're Mare has a foal by our Stallion, and in the worst case, this foal was born death, the Mare again can be covered by our Stallion stud fee without having to pay, though stable money has to be paid. In that case we need a note from a veterinarian that the Colt has never lived and died not by the negligence of the owner(s). However, this warranty is void in case of sale of the mare.

Cost:

Stud Twinkeling is an officially recognized Centre for artificial insemination.

Rates

Guidance and insemination with fresh semen: 121 EUR/season

Guidance and insemination with frozen semen: 242 EUR/season

Ultrasound scan controls and inseminations per cycle are included. Additional treatments or examinations are charged separately. The transport cost of fresh sperm is always for account of the customer.

Stable money Mare without foal: 9 EUR/day

Stable money Mare with foal: 12 EUR/day
